*Kazakhstan Iron Ore*

## CAPABILITY

Mining Associates is a specialist global geological and mining consultancy, with offices in Brisbane and Hong Kong.

We are a highly experienced, dedicated team of resource professionals working with a large network of recognized experts and advisers to the minerals industry (“Associates”) covering copper, gold, base metals, uranium, bauxite, nickel laterites, coal, iron ore, potash, phosphate and mineral sands.

We are focused on providing you with an understanding of the fundamental geological controls to add value to your project. The company undertakes high level work across a wide spectrum of mineral commodities, geological settings and mining methods on a diverse range of projects both within Australia and Internationally. We are focused on supplying specialist advice and world’s best practice products. We have a strong combination of “hands on” experience and practical implementation of the latest methods to provide our clients with the best solutions to their needs.

## RECENT PROJECT EXPERIENCE

- **Ghana** – technical review and high level evaluation of an exploration stage iron project, site visit, geology review and project evaluation
- **Kazakhstan** – due diligence study for purchasing entity of magnetite iron ore deposit, site visit, geological assessment, QA/QC, drill confirmation program planning, resource estimate review, metallurgical assessment and program planning, valuation (to CIMVal)
