

## BAUXITE AND NICKEL LATERITES

- Geology
- Exploration
- Ore Body Modeling
- Resource Estimation
- Independent Technical Reports
- Valuations

*Tiebaghi Project. SLN. New Caledonia*

## CAPABILITY

Mining Associates is a specialist global geological and mining consultancy, with offices in Brisbane and Hong Kong.

We are a highly experienced, dedicated team of resource professionals working with a large network of recognized experts and advisers to the minerals industry (“Associates”) covering copper, gold, base metals, uranium, bauxite, nickel laterites, coal, iron ore, potash, phosphate and mineral sands.

We are focused on providing you with an understanding of the fundamental geological controls to add value to your project. The company undertakes high level work across a wide spectrum of mineral commodities, geological settings and mining methods on a diverse range of projects both within Australia and Internationally. We are focused on supplying specialist advice and world’s best practice products. We have a strong combination of “hands on” experience and practical implementation of the latest methods to provide our clients with the best solutions to their needs.

## RECENT PROJECT EXPERIENCE

- **Aurukun, Australia (Bauxite)** – project review and audit, geology & geology modeling, exploration program planning, exploration management, database management and resource estimation
- **Pisolite Hills, Australia (Bauxite)** – project review and audit, geology & geology modeling, exploration program planning, exploration management, database management and resource estimation
- **China Aluminium Corp, Australia (Bauxite)** - IPO, independent technical report
- **Weipa, Australia (Bauxite)** - mine geology, resource and reserve estimates
- **Worsley, Australia (Bauxite)** - mine geology and production review
- **Vanua Levu, Fiji (Bauxite)** - field geology, exploration program, drill program, resources estimate
- **Tiebaghi Mine, New Caledonia (Ni)** - production control and planning
- **Goro, New Caledonia (Ni)** - feasibility study
- **Murrin Murrin, Western Australia (Ni)** – exploration review and drill targeting
- **Ouaco, Noumea (Ni)** - mine planning, optimization
- **Siriwo, West Irian, Indonesia, (Ni)** - project review
- **Ramu, Papua New Guinea (Ni)** - resource estimation and feasibility study
